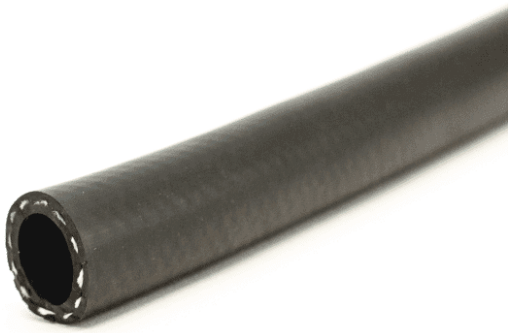
MULTIPURPOSE HOSE



MULTIPURPOSE HOSE – PRODUCT FEATURES AND APPLICATIONS

This flexible PVC/NBR hose is an oil resistant hose with a working pressure of 20 bar. It is resistant to several chemicals, weather conditions, microbes, hydrolysis, ageing, ozone and UV. It is particularly suited to air and water.

- Colour: Black inside and out
- Temperature Range: -20°C+80°C

Technical Features : PVC hose reinforced with a braided polyester thread. It has a completely smooth bore to ensure optimization of flow.

Multipurpose Hose

This flexible PVC/NBR hose is an oil resistant hose with a working pressure of 20 bar. It is resistant to several chemicals, weather conditions, microbes, hydrolysis, ageing, ozone and UV. It is particularly suited to air and water.

Technical Features : PVC hose reinforced with a braided polyester thread. It has a completely smooth bore to ensure optimization of flow.

Application Fields: Widely used in all types of industries for delivery of air / water and for applications that require a flexible oil resistant hose.

Colour: Black inside and out

Temperature Range: -20°C+80°C

*Please note the diameters listed below are all inside diameters . Please check this before ordering.

- Colour: Black inside and out
- Temperature Range: -20°C+80°C

FAQS

What is Multipurpose Hose?

This flexible PVC/NBR hose is an oil resistant hose with a working pressure of 20 bar. It is resistant to several chemicals, weather conditions, microbes, hydrolysis, ageing, ozone and UV. It is particularly suited to air and water.

WHITEHOUSE
FLEXIBLE TUBING LTD

What applications are listed for Multipurpose Hose?

Application Fields: Widely used in all types of industries for delivery of air / water and for applications that require a flexible oil resistant hose.

What temperature information is given for Multipurpose Hose?

Temperature Range: -20°C+80°C

What colour is Multipurpose Hose?

Colour: Black inside and out

What technical features are specified for Multipurpose Hose?

Technical Features : PVC hose reinforced with a braided polyester thread. It has a completely smooth bore to ensure optimization of flow.
