PHARMAPRESS

Translucent hose made from TPE-S hygienic rubber reinforced by high tenacity polyester yarn. Inside and outside completely smooth to enhance flow properties and allow easy cleaning and sterilization processes. Highly neutral in taste and odor, it preserves the organoleptic properties of the medium. Curing-free material: Pharmapress does not need any vulcanization process, therefore it prevents the risk of leaching of curing agent residues into the end product (peroxide or platinum volatile rests) and allows to save energy sources and limit CO₂ emissions. Good chemical resistance to acids and alkaline solutions and good impermeability. Excellent resistance to hydrolysis and proliferation of bacteria. Versatile rubber resistant also to oils and fats under common use conditions. Excellent resistance to ozone, ageing and weather condition.
