

STAINLESS STEEL SUPER HEAVY DUTY EXHAUST CLAMPS

Our super heavy duty exhaust clamps comprises full band clamps that close via a bolt.

They are particularly designed for sealing suction and pressure lines with plastic or steel reinforcements.

Their distinguishing feature is an extremely high band tension.

TECHNICAL DATA

To Suit Tube ID	Clamping Range	Band Width	To Suit Tube (O/D Size MM)
1 ¾	47-51	20mm	47-51
2	55-59	20mm	55-59
